PROFESSIONAL SUMMARY

Frontend Developer with 1+ years of experience in building scalable web and mobile applications using React.js, Next.js, React Native, and TypeScript. Experienced in developing responsive user interfaces, integrating REST APIs, payment gateways, OAuth authentication, and delivering high-performance cross-platform solutions.

EDUCATION

Degree/Certificate	Institute / Board	CGPA/%	Year
B.Tech, Computer Science & Engineering (AI & ML)	Vaagdevi College of Engineering	7.6	2024
Senior Secondary (MPC)	Narayana Junior College	92.4	2020
Class X (CBSE)	Ekashila High School	82.4	2018

EXPERIENCE

- Anasol Consultancy Services**  May 2025 – Present (1 Yr 1 Mo)
Associate Software Engineer (Frontend) Hyderabad, India
 - Spearheading the frontend development of large-scale web and mobile applications using React.js and React Native.
 - Collaborating with backend and design teams to build fully responsive, dynamic, and user-centric interfaces.
 - Ensuring application performance and scalability by maintaining clean, modular, and reusable component architectures.

PROJECTS

- Zufeto Web Application**  Present
Tech Stack: React.js, Tailwind CSS
 - Currently developing the user-facing web application for Zufeto, a large-scale international B2B e-commerce platform.
 - Integrating complex features such as multi-language support (i18n), international payment gateways, and shipment handling functionalities.
 - Designing a fully mobile-responsive and dynamic UI using React.js and Tailwind CSS for a seamless cross-border user experience.
- Ritual Elements**  Past Project
Tech Stack: Next.js, TypeScript, Tailwind CSS, Razorpay, OAuth

- Developed the complete frontend for a fitness supplement e-commerce platform serving users and administrators, improving product browsing, checkout experience, and order management workflows.
- Integrated secure payment workflows leveraging Razorpay and implemented Cash on Delivery (COD) functionality for seamless checkout.
- Built a unified platform for both users and admins featuring role-based access control (RBAC) and seamless OAuth login integration.
- Optimized deployment strategies by successfully converting and configuring the Next.js project from Server-Side Rendering (SSR) to a fully static export.

- **JJR Organics Multi-Platform Application**

Past Project

Tech Stack: React Native, TypeScript, StyleSheets

- Independently managed the end-to-end frontend development across Web, Android, and iOS platforms.
- Implemented robust architecture using React Native and TypeScript to ensure type safety and code scalability.
- Managed complete mobile responsiveness and customized styling using React Native StyleSheets.

- **Techlife Chat Module**

Past Project

Tech Stack: React.js, React Native, WebSockets

- Independently handled the frontend development of a real-time chat module for the Techlife platform leveraging WebSockets.
- Successfully integrated the chat interface across both the React.js web application and the React Native mobile application for instant messaging.
- Ensured smooth synchronization of real-time messages and an intuitive messaging user experience across all devices.

ACHIEVEMENTS

- Delivered 4+ production-level web and mobile applications.
- Independently handled frontend development for cross-platform React Native applications.
- Successfully integrated international payment gateways and OAuth authentication systems.

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Libraries & Frameworks:** React.js, React Native, Next.js, Tailwind CSS, Redux Toolkit, Context API
- **Backend & Integration:** Spring Boot (Integration), WebSockets, REST APIs, OAuth, Razorpay, JWT Authentication
- **Tools & Platforms:** Git, GitHub, GitHub Actions, VS Code, NPM/Yarn, Postman
- **Core Concepts:** Responsive Web Design, Cross-Platform Development
